Summary

Enthusiastic and detail-oriented Python Developer with a strong foundation in object-oriented programming, data structures, and algorithms. Proficient in developing web applications using Django hands-on experience in API development, database management (MySQL, PostgreSQL), and version control (Git). Passionate about problem-solving and eager to contribute to innovative projects. Quick learner with excellent analytical skills and a strong commitment to writing clean, efficient, and scalable code. Seeking an opportunity to apply technical knowledge and enhance skills in a dynamic development environment.

If you want me to tailor it further based on specific skills, projects, or internships, let me know! 🚀
